We offer you an effective package to help you make the decision: **should you establish your company or not?**

After the program you will have a clear vision of what to do next.

For whom

- You have a business idea OR a very early stage company
- You have a team of two or more people OR you don't have a team yet, but you have a strong will to form one
- You live in Tampere

What does coaching mean?

Decisions: "All-in" vs. "baby-steps"

What are our personal risks?
What if...
... it takes longer?
... customers love it?
... it needs more work than expected?
... you hesitate too much?
...?
What is your alternative?

Welcome

Apply to the program by 21.5.

Please note that selections are made on the basis of applications, so tell us as much as possible about your idea.
